

Debt Placement

Simplifying Agency Assignment With Integrated Visibility

When it's time to place your delinquent accounts with an external collection agency, Katabat™ can help. Simplify the agency assignment process in one unified platform. Focus your time on business results.

End-to-End Placement, Seamless Management

Visibility is critical when you're placing your accounts and assigning agencies. Part of the comprehensive, proven Katabat™ Restore collections and debt management solution, Katabat™ Debt Placement provides you with a centralized platform to manage agency assignment, communication and monitoring, recalls, and putbacks.

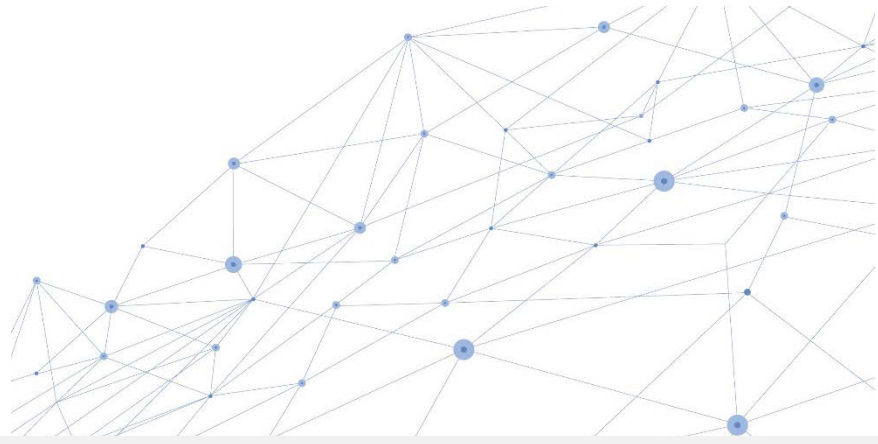

The Highlights

If you're in a hurry

- Assign your delinquent accounts to external agencies
- Centralize agency-specific account activities including putbacks, and receive a daily data file from Katabat to effectively audit agency and account performance
- Recall and reassign accounts from one agency to another
- Send personalized agency communications

Debt Placement

Simplifying Agency Assignment With Integrated Visibility

Placement Technology, Your Way

You don't have to replace your current systems in order to benefit from our placement technology. You can use our placement hub with your existing infrastructure to assign, place, and track accounts to agencies. Leverage our centralized platform to define and optimize your agency placement strategies and manage agency distributions.

Retain Visibility and Control

Manage every aspect of debt placement with the right information to guide your actions. Recall and reassign accounts from one agency to another with insights into past placements. Centralize agency-specific account activities, including putbacks.

View agency payment and promise activities in the agent portal. Since you have all the latest data, you can make informed decisions and changes as needed to maximize results.

Key Benefits

Cost effective and fast to deploy

End-to-end management across the entire debt placement process

Robust strategy portal to manage inventory and workflow

Centralized platform delivers the visibility you need

Activity reconciliation between agencies and debt purchaser placements
